

Refrigeration On Demand

U-COOL makes it simple to transport and rent additional cold storage space when you need it — for as long as you need it, and then return it when your done. Simple.

We understand there will be changes in the requirements for cold storage space from time to time, and some of them are planned, and some unplanned. In any event, you can make advance reservations, or call in emergency situations, and know that we will be ready.

Refrigeration for Restaurants and Events

U-COOL offers clean and secure food and beverage storage for events as well as temporary refrigerated storage for restaurants and grocery stores.

Our beer trailers, coolers, and freezer units offer a convenient serving solution for event planners, volunteers, and vendors. Chill, store, and lock all of your inventory in one place.

How can we help? Call **253-573-1694** or visit us online at www.ucool.biz for prices, specifications, online reservations, and pictures of all our rentals.

REFRIGERATION ON DEMAND

U-COOL® Refrigerated Rental Vehicles

Our specialty is refrigerated rental vehicles — it's what we do.

The Right Temperature

Our vehicles can maintain either frozen or fresh perishable products. All units have adjustable thermostats.

The Right Size

U-COOL has the right size vehicle for the job: vans, trucks, and trailers. All of our trucks are non-CDL.

Our refrigerated trailers are the perfect size for temporary walk-in coolers or freezers during construction, repairs, holiday overstocks, and events.

The Right Power

All U-COOL vehicles have **Electric Standby Power** built in. We offer portable gas generators as an auxiliary option for our 12' and 16' trailers.

The Right Service

- We deliver or you pick-up
- Daily, weekly, or 4-week rentals
- Available 7 days a week
- 24 hour online reservations
- Same day and emergency after-hours delivery
